

## Safety Zone® Empower® Nitrile Exam Gloves, Powder-Free, 10x100, Blue, 8 mil - Medium

Empower® Nitrile Powder-Free Exam Gloves are engineered to deliver robust protection, comfort, and performance in a variety of demanding professional environments including healthcare, emergency response, industrial work, laboratory tasks, and facility maintenance. Built from 8 mil nitrile, these gloves offer significantly greater resistance to tears, punctures, and wear than thinner exam gloves, making them suitable for rough jobs and high-risk settings. Their powder-free, latex-free design helps minimize contamination risks and allergic reactions, while the micro-textured surface enhances grip in both wet and dry conditions. These exam-grade gloves meet ASTM D6319 standards and comply with FDA CFR Title 21 indirect food contact regulations, ensuring reliable hygiene and safety where it matters most. Trusted by EMS, law enforcement, and industrial professionals alike, they're a dependable choice for environments that demand durability, tactile sensitivity, and protective performance.

**\*\*Adenna branding is changing to Safety Zone. The gloves are the exact same, but our branding and packaging is being updated. Please note that this will be a rolling change and you may receive mixed packaging styles until our inventory is depleted.\*\***

**NOT AVAILABLE FOR SALE IN CANADA.**
